

Watch Out For the ‘Other Driver’

10 Warning Signs of Drivers Experiencing Diminished Operational Capabilities

Distractions

Fatigue

Driving Under the Influence

- Traveling significantly faster or slower than the speed limit or flow of traffic
- Needlessly changing speeds
- Unable to maintain lane position
- Drifting or swerving from lane
- Suddenly braking at normal traffic stops
- Running red lights or stop signs
- Following too closely
- Seat dancing (to the music)
- Tilting head down instead of looking ahead
- Stopping longer than necessary at red lights or stop signs
